Continued

A FEW WORDS ABOUT THE SQUARE DANCE CENTER AND CAMPGROUND

Ray and Afton Granger created the Dance Center in 1978 on the banks of Lolo Creek. They spent more than 30 years in the square and round dance activity in the Missoula area – Ray as a caller and round dance instructor, assisted by his wife, Afton. Afton was in the square dance apparel business for over 35 years. Together they designed and have built a facility with an almost perfect arrangement for the dancers.

Ray passed away in April 1998 and Afton joined him in May 2014. Both are greatly missed by their family and square dance friends. Bobbie & Barry continue the legacy and hospitality they began at this beautiful campground and dance facility.

The Dance Center was constructed in the spring of 1978, and first opened in June, for the whole purpose of square dancing and round dancing. It has a cushioned maple floor, air conditioning, excellent sound and room for 30 squares. Adjoining the dance floor is a tabled rest area where coffee, tea, pop and other refreshments are available during the dance breaks. A well-stocked square dance apparel shop also adjoins the dance floor.

Other activities include horseshoes, and an 18 hole whiffleball golf course that winds through the trees and is a challenge to even the experienced golfer and a great deal of recreation to the novice golfer. There are afternoon acoustic music jams and a 1 mile scenic perimeter nature walkway through the trees and along Lolo Creek that provides many with a part of their daily exercise. Fishing in Lolo Creek requires a State fishing license and is open to our guests.

The Dance Center is located on twenty-seven acres of pine tree-covered land along Lolo Creek, 3300 feet above sea level. This is in western Montana near the Idaho border in the midst of the beautiful Bitterroot Mountains. A six hour drive will take you to Yellowstone Park and a four hour drive will take you to Glacier Park. National and State forest lands of all kinds are within a short drive of the Dance Center. Some of the rivers nearby are the Bitterroot, the Clark Fork and the Blackfoot, which all join near Missoula. Numerous smaller streams, including Lolo Creek, provide excellent trout fishing. Summer activities include boating, fishing, hiking, sightseeing, swimming and square & round dancing.

The town of Missoula, home of the University of Montana, is eleven miles away and provides many excellent motels, restaurants, shopping areas and theaters. There are five public golf courses located in the Missoula area.

CAMP AND DANCE ALONG THE LEWIS & CLARK TRAIL

The summer program has Phase 4+ round dancing on Monday evenings, Phase 3 & 4 rounds on Tuesday evenings, and square dancing every Thursday through Sunday. Nationally known square dance callers have been scheduled for most Fridays, Saturdays and Sundays. Plus level square dance lessons/workshops are on Thursday evenings, and plus level square dancing is on Friday and Saturday evenings. Mainstream level square dancing is on Sunday evenings. Week long sessions for mainstream and plus level square dancing, as defined by CALLERLAB, have been scheduled. Special round dance weekends have been scheduled in June. We hope that you will stop by for a visit when you pass our way.
